*Trusted by Australian tradies and construction businesses. No
lock-in. No software headaches.*

THE PROBLEM

Quoting is costing you jobs – and you might not even know it.

For most Australian tradies, quoting is one of the most time-consuming parts of running a business. You're reading through plans, pulling numbers from memory, checking supplier prices, adding GST, and hoping you haven't missed anything.

Too Slow

Manual takeoffs take hours. Jobs move fast. Slow quotes mean missed opportunities.

Missed Items

One forgotten fixture or labour line and your margin disappears on the job.

Guesswork

Quoting from gut feel means inconsistent pricing and unpredictable profits.

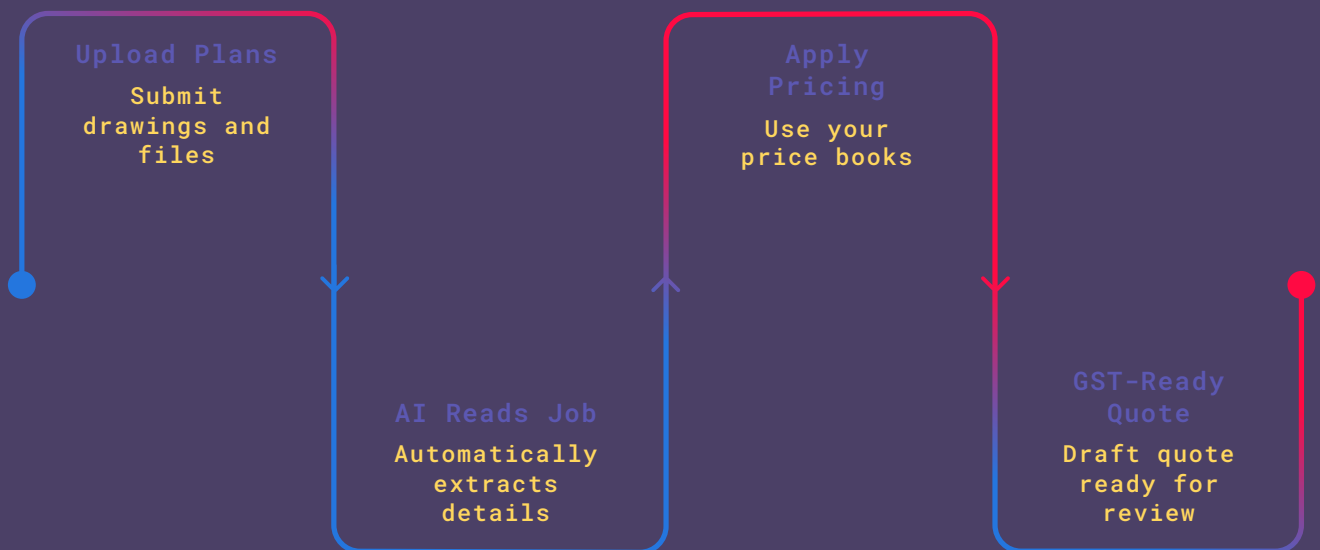

Every slow or inaccurate quote is a chance for a competitor to win the job instead.

THE KINDAI WIN

Upload the plans. Get a GST-ready quote draft in under 60 seconds.

kindai ESTIMATING SUITE reads your plans, applies your price books, and builds a complete draft quote – ready for your review before it goes anywhere near the client.

The AI handles the first-pass takeoff. You stay in control of the final quote. No black boxes. No surprises. Just a faster, more consistent way to quote every job.

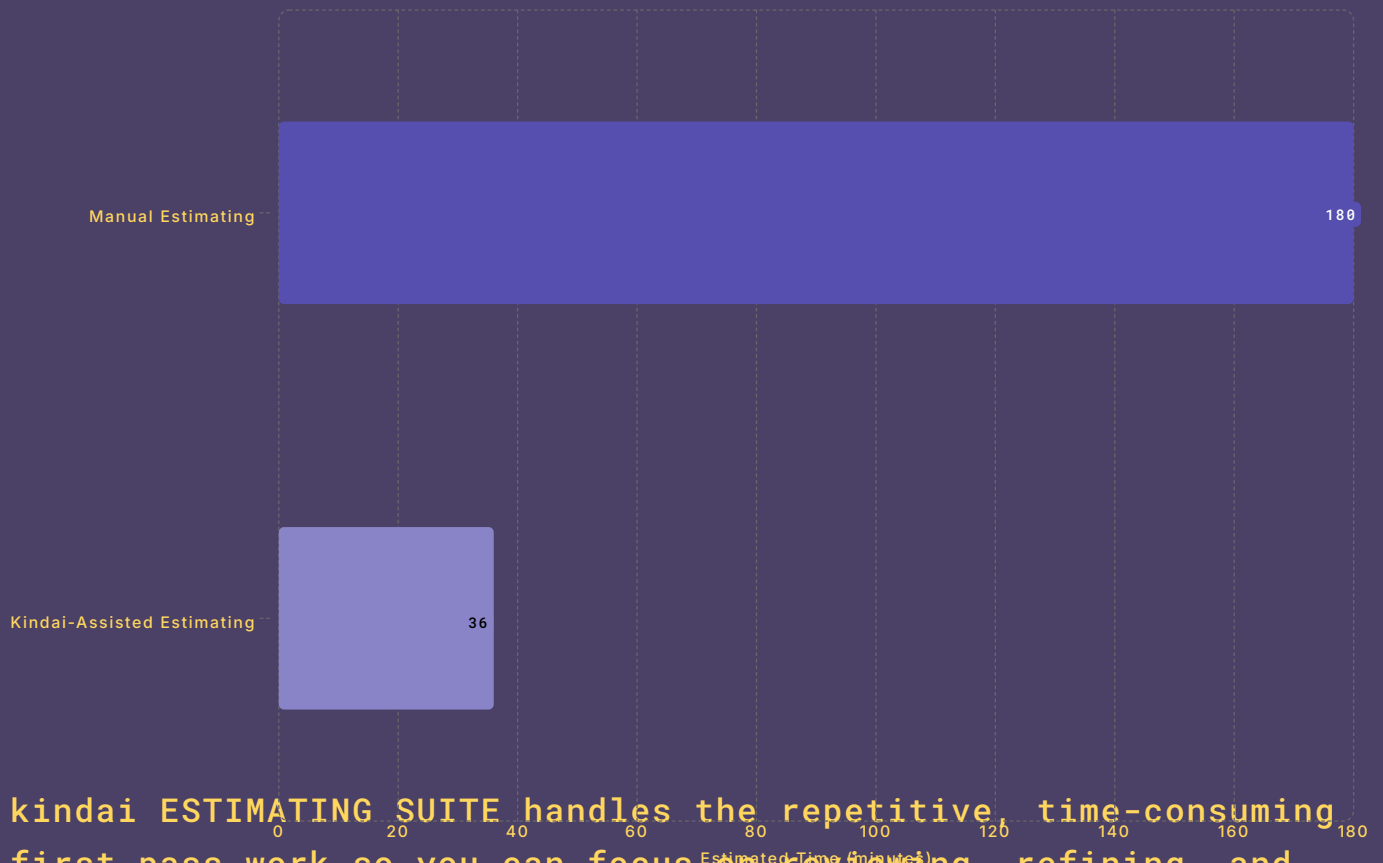

✓ Cuts first-pass takeoff time by up to 80%.

BENEFIT 1

Quote faster. Win more jobs.

Time spent quoting is time not spent on the tools. With kindai, your first-pass takeoff happens in minutes – not hours.

Method

kindai ESTIMATING SUITE handles the repetitive, time-consuming first-pass work so you can focus on reviewing, refining, and sending – not counting fixtures from scratch.

80%

Time Saved

On first-pass takeoff vs. manual estimating.

60s

Draft Quote

From plan upload to GST-ready draft.

5x

More Quotes

Send more quotes. Win more jobs.

BENEFIT 2

Stop missing items. Every line matters.

A missed item on a quote doesn't just hurt your margin – it can turn a profitable job into a loss. kindai ESTIMATING SUITE reads plans thoroughly and applies structured takeoffs so nothing gets skipped.

Fixtures & Materials

AI detects fixtures, fittings, and materials from the plans and matches them to your price book.

Labour

Labour lines are calculated based on configurable Award rates for your trade and state.

Compliance Prompts

WHS/OH&S notices and state licensing prompts are automatically included in the draft.

Human Review

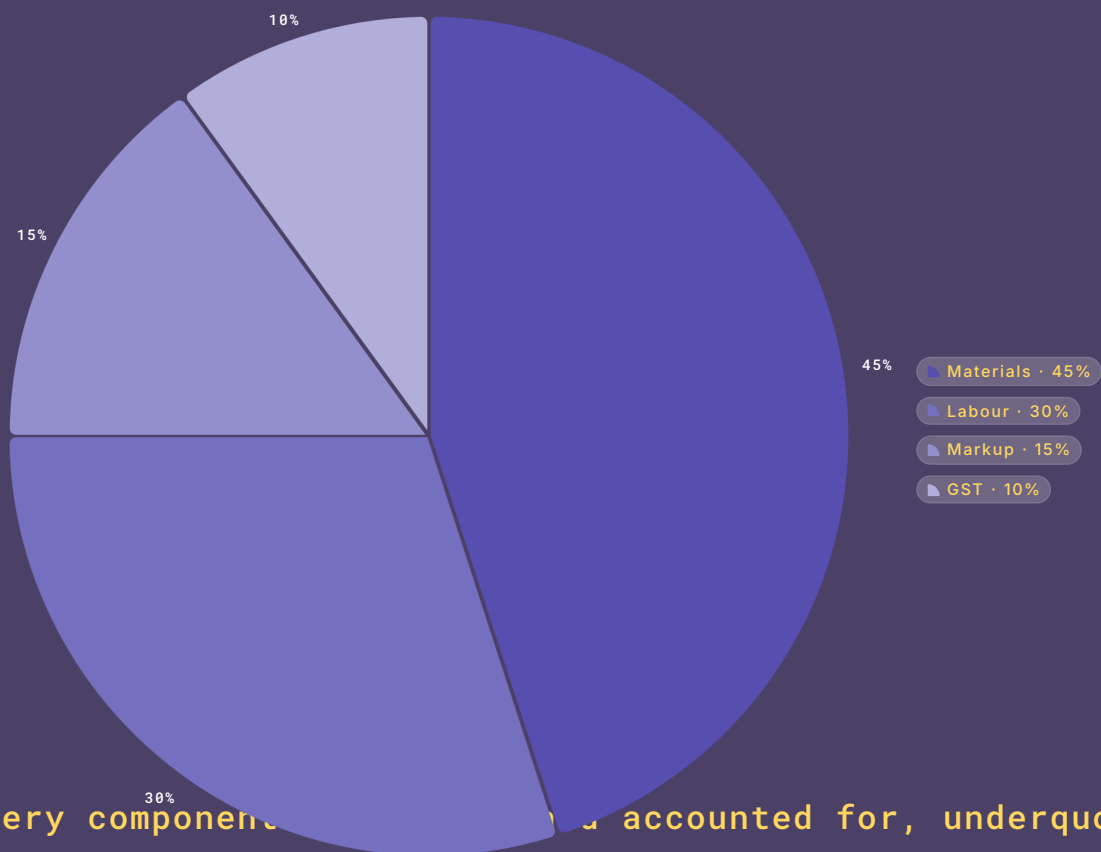

Every quote draft is reviewed by you before it's sent. You catch anything the AI didn't.

- ✔ No black boxes. No surprises. Just complete, structured quotes – ready for your eyes first.

BENEFIT 3

Protect your margins. Know your numbers.

Every quote built with kindai ESTIMATING SUITE includes a clean cost breakdown – materials, labour, markup, and GST – so you always know exactly what you're quoting and why.

When every component is accounted for, underquoting stops being a risk – and your margins stay where they should be.

- ① No more gut-feel guessing. Every line item is visible, structured, and yours to approve before a client sees a single number.

BENEFIT 4

Your rates. Your rules. Your memory.

kindai ESTIMATING SUITE learns your business. The AI builds a company memory from your corrections, preferences, and past quotes – so every new quote reflects the way *you* work.

Supplier Price Books

Connect your preferred Australian suppliers. Kindai applies your negotiated trade pricing – not retail.

Labour Rates

Configure Award labour rates for your trade. Kindai applies the right rate to the right task, every time.

Markups & Rules

Set your markup rules once. Kindai applies them consistently across every quote, every job.

Corrections & Learning

Every correction you make teaches Kindai. Over time, the drafts get sharper and need less adjustment.

- ❑ The more you use it, the smarter it gets. Kindai adapts to your business – not the other way around.

BENEFIT 5

Built for Australian trades. Not adapted. Built.

kindai ESTIMATING SUITE was designed from the ground up for the way Australian tradies and construction businesses actually work.

GST-Ready Quotes

Every quote draft includes GST, calculated correctly and displayed clearly.

Award Labour Rates

Configurable rates for Australian Award conditions across supported trades.

WHS / OH&S Notices

Compliance prompts are automatically included in quote drafts where relevant.

State Licensing Prompts

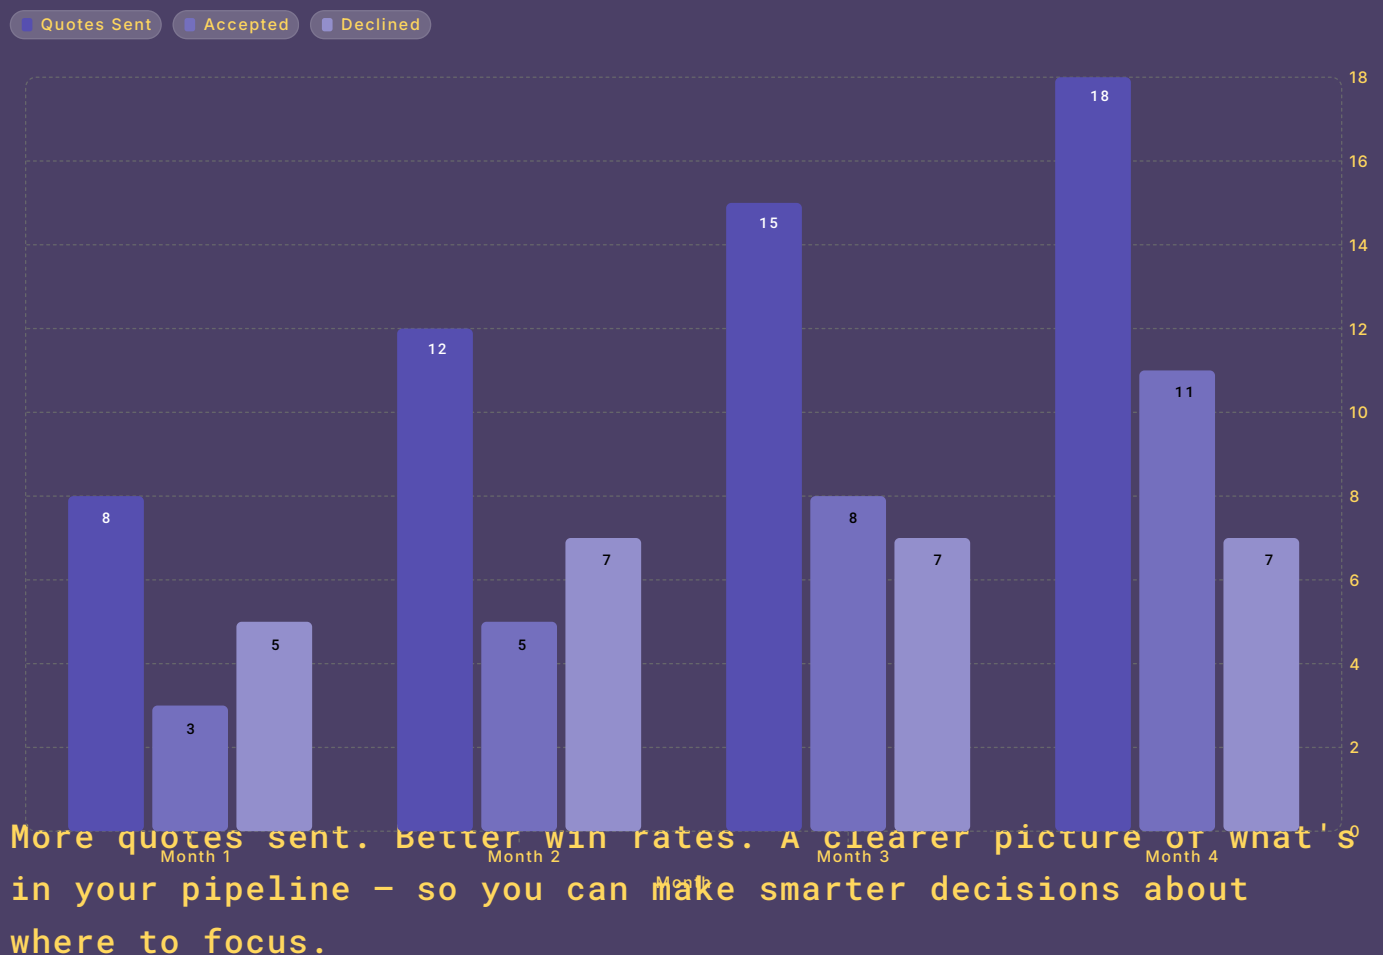

State-specific licensing requirements are flagged automatically during the quoting process.

① Supported trades include: electrical, plumbing, carpentry, concreting, HVAC, flooring, landscaping, cabinet making and joinery, rendering, and gas.

BENEFIT 6

Win more work. See your pipeline clearly.

When you quote faster and more accurately, you quote more often – and that means more opportunities to win work. kindai ESTIMATING SUITE helps you keep your pipeline visible and active.

TRADE EXAMPLES

Works for your trade. Whatever it is.

kindai ESTIMATING SUITE is built to handle the real complexity of Australian trade quoting across a wide range of specialities.

Electrical

Fixture detection, cabling runs, board upgrades, and compliance notices included in every draft.

Plumbing

Hot and cold runs, fixtures, drainage, and labour rates applied from your configured price book.

Concreting

Area calculations, reinforcement, finishing, and pour labour – all read from the plans.

Cabinet Making & Joinery

Custom joinery scopes, materials, hardware, and fitting labour structured into clean quotes.

Carpentry

Framing, fixing, and fit-out labour applied with your rates and supplier material pricing.

HUMAN REVIEW & CONTROL

Kindai drafts it. You approve it. Always.

kindai ESTIMATING SUITE is not an autopilot. It's a precision tool that handles the heavy lifting – then puts the finished draft in front of a human before anything goes to a client.
